## PROJECTS

**Final Year Project**                          **2024-25**

**JARVIS(AI) Virtual Assistant**

- Made a virtual assistant using python language libraries named (JARVIS) that enables a user to perform tasks given by the users voice.
- Integrated a total of 30 functional commands that a user can perform with the assistant.

**SPOTIFY CLONE**                          **2022 FEB-MAR**

- Made a clone of Spotify Clone web application that helps in playing music on the go in offline mode.
- It also offers all the basic functionalities of the spotify app.

**SPEEDEX COURIER**                          **2019 JUL-AUG**

- Built a Responsive website (SPEEDEX COURIER) that is compatible with mobile devices using media queries and bootstrap frameworks.
- This website lets users track a parcel in real-time using their alotted tracking id.
